Positive celebration of Students and staff	5 min	Welcome back to Katie Welch tomorrow! Thank you to Janet Williams for a job well-done. Great student of the month celebration It was nice to go to the HS for the musical preview and see former students performing. Students did a nice job behaving respectfully (6/7 grade). 8 th grade to go tomorrow.
BPT plan <ul style="list-style-type: none"> • Vote results 	2 minutes	Thank you to Emmy for coordinating the vote. The plan passed successfully. Concerns from 2 no voters – The plan does not address specifically the need for learning loss recovery for students who were out of school for the past 2 years.
Community Circles <ul style="list-style-type: none"> • Proposed spring dates 	10 minutes  Cosgrove Day Rotat...	Proposed schedule shared and discussed. Dates will be shared once state testing dates are announced. We will finalize at our next meeting in 2 weeks.
Participation Rate Improvement Plan (ESSA) <ul style="list-style-type: none"> • Review/Revisit PRIP • Implementation 	10 minutes  2020-2021 PRIP Cosg...	Jim, David and Pam presented to BOE at last meeting regarding our ESSA status and plan. Per the state, we must have 95% participation in the state tests in order for us to be removed from this designation. Our past 2 years of participation had 50-60% opt out rate. The state is directing us to implement a plan to increase participation in state assessments. The attached plan was adopted by the BOE in May 2020. Many BPT members had concerns over the development of the plan at that time. Much of the plan specifically falls on Jim. One part of the plan cites researching what districts have 95% participation. Participation rates from 2019 make the most sense to research as it was our last "normal" year for data collection. David has been given the task of researching districts across the state. BPT members can volunteer to help with said research. Many BPT members voiced concerns on their own ethical beliefs on state testing, especially given the current state of things. Jim will construct a brief parent survey as well. Janeen has volunteered to help with that.
Referral Data <ul style="list-style-type: none"> • Referrals to date • PBIS 	10 minutes  Referral Data	Reviewed referral data for the past several years. More reflection is needed to assess the data. Is it a small number of students who are repeat offenders? Is it a result of the pandemic and time away from school? What can we do to correct behaviors? It is important to follow up with parents for disrespectful behaviors and write the referrals. We need to stay on course and vigilant in curbing misbehaviors. Discussion of PBIS helping to build in a hallway booster lesson. If we can curb misbehaviors in the hallway, maybe it would help with classroom behaviors at least at the start of class.
Faculty Lounge <ul style="list-style-type: none"> • Decorate/paint • Partner with LOTS 	10 minutes	LOTS would like to help with this and forming a committee to discuss needs for both faculty rooms.
Schedule Survey <ul style="list-style-type: none"> • Draft Survey 	10 minutes	We need to develop a survey to solicit feedback on the workings of the new schedule. Many concerns have been brought up about Advisement and the timing of it (i.e. 6 th grade schedule is very afternoon heavy with core classes). Jim and Jenny will meet to discuss. Jim and Jenny will come to our next meeting with a draft survey and we will approve before sending out to staff. *Staff please take the time to be reflective when completing this survey so that we are able to address the big issues with our current schedule.
Climate and Culture <ul style="list-style-type: none"> • Next faculty/staff celebration • Ideas? 	10 minutes	Ty has canceled our next faculty meeting. There is nothing in its place for that day. Enjoy the time! We are also working on more ideas for upcoming events!
